

Hi,

I'm Bryony and I have been invited to write to you by my school.

During lockdown I have been practicing sewing, I made a dress for my sister doll. I have also been doing my school work of course and spending time with my family. I'm finding lockdown ok but I miss being able to go outside and see my friends.

I have a few questions. What's it like in the care home? I hope it's fun and you are doing things you enjoy. What things are you doing to keep yourself entertained during lockdown? And finally what things do you enjoy?

Lockdown has made me realise that spending time with my family is very important so I have been FaceTiming and calling my grandparents more often. Although it not great and I can't go to school, see my friends or go swimming I have tried to make the most of it I have talked to some of my friends from my old school and I have been learning new things. For example I am learning how to skateboard, learning more German and learning different exercises that will help with my swimming. Overall lockdown has helped try new things and talk to people/ spend time with people that I wouldn't have done before.

I hope you enjoyed reading this and are keeping well.

From

Bryony

I thought I would attach some pictures of my cat that I have edited.
